

Invitation
5th workshop for students on
"Reciprocating compressors"

The workshop comprises an excursion to companies and institutes in Vienna dealing with different aspects of piston compressors. All participants will receive a certificate and, as a special highlight, the best papers on the workshop task will be awarded prizes.

Participants:

The workshop is open for all European students (universities and similar institutions). The number of participants is limited to 20.

Date and location:

May 13 – 16, 2008, Vienna Austria

Organisation:

For students the participation is free of charge.

The EFRC will organise the trip and the transportation during the workshop and will also pay for the transportation to and from Vienna.

Program:

Date	Action
Tuesday, 13th May 2008	Arrival in Vienna (Austria) Meeting of the students from different countries Tour of Leobersdorfer Maschinenfabrik 's facilities, Leobersdorf - Presentation "Design of reciprocating compressors" <i>Dr. Ernst Huttar (Leobersdorfer Maschinenfabrik, Leobersdorf/ A)</i> Dinner in Leobersdorf and accommodation in Vienna
Wednesday, 14th May 2008	Tour of Hoerbiger Ventil Werke (compressor valve manufacturer) facilities - Presentation "Dynamics of compressor valves" <i>Dr. Peter Steinrück (HOERBIGER Wien / A)</i> Dinner and accommodation in Vienna
Thursday, 15th May 2008	Tour of Borealis plant in Schwechat / A (different applications of reciprocating compressors) Tour on several OMV 's gas gathering compressor units / A Accommodation in Vienna
Friday, 16th May 2008	- Presentation "Pulsation and vibration in reciprocating compressors" <i>André Eijk (TNO Delft / NL)</i> - EFRC workshop tasks <i>Prof. Dr. Hans Quack (Techn. University Dresden / D)</i> END OF THE WORKSHOP
