

12th EFRC CONFERENCE

August 24 – 26, 2021

Warsaw, Poland

EUROPEAN FORUM
for RECIPROCATING
COMPRESSORS

WWW.RECIP.ORG

12th EFRC CONFERENCE

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

COMPRESSOR AND COMPONENT DESIGN

- One year's successful industrial test of a new all-electric capacity control system**
by: Saillard Delphine – Air Liquide; Benoni Albert, Gerhard Hölzl – HOERBIGER 3
- Your Gas Compression Application – Reciprocating, Centrifugal, or Screw?**
by: Greg Phillippi, Ben Williams – Ariel Corporation; Tim Manthey – Aerzen USA; Jonathan Sutter – Elliott Group; Bruce McCain – Oxy Permian 9
- Large Reciprocating Compressor Modules – A new integrated design process to minimize all risks related to this challenging application**
by: Simone Bassani, Riccardo Bagagli, Marco Passeri, Leonardo Sapuppo – BH Nuovo Pignone* 19
- Innovative Remediation Techniques to Compressor Foundation Systems**
by: Christopher Matthews-Ewald – ITW Performance Polymers 31
- Accurate load limit determination of reciprocating compressor components**
by: Gerhard Knop, Dr. Klaus Hoff – Neuman & Esser GmbH & Co. KG 41

AVAILABILITY AND RELIABILITY

- Maximizing run-time and predicting performance of compressor pistons**
by: Andreas Brandl, John Ladd, Cory Bulloch – HOERBIGER Service Inc. 53
- Fabrication of test bench for reciprocating compressors valve and choosing proper valve leakage testing procedure according to experimental results.**
by: Fouladivanda Mojtaba, Sadeghi Vahid, Momeni Omid – Iran Chemical Industries Investment Company 65
- A Case Study on Modernising the Maintenance Management of Reciprocating Gas Compressors**
by: Kenneth Burns, Ramin Rahnama – Wood 77

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

DIGITALISATION AND AI

What's going on with my recip? How uncommon failure modes get detected.	
<i>by: Gaia Rossi, Thorsten Bickmann, Fayyaz Qureshi – Bently Nevada, a Baker Hughes business</i>	87
Valve Data Acquisition throughout the Life Cycle	
<i>by: M. Schiavone, A. Raggi, A. Giampà, G. Ballerini – Dott. Ing. Mario COZZANI s.r.l.</i>	97
Introduction of Electronic Control Panels in Reciprocating Gas Compressor packages	
<i>by: Baruah Prateek, Oil India Limited</i>	107
Pulsation Damper Optimization with AI	
<i>by: Jonah Poort, Can Tümer, Pejman Shoeibi Omrani – TNO, Heat Transfer and Fluid Dynamics</i>	117
Big Data Anomaly Detection Methods for Reciprocating Compressors	
<i>by: Can Tümer, Jonah Poort, Pejman Shoeibi Omrani – TNO, Heat Transfer and Fluid Dynamics</i>	127

PULSATIONS AND VIBRATIONS

Validation of Pressure Pulsation and Vibration Analyses in a Reciprocating Compressor for Design Optimization	
<i>by: Cappelli Leonardo, Sacco Marco, Fusi Andrea – C.S.T. S.r.l.; Mazzoleni Thomas – SIAD Macchine Impianti S.p.A.</i>	141
Reduction of Vibration – Modal testing of a reciprocating compressor, theoretical background and practical testing	
<i>by: Thomas Heumesser, Ferdinand Marks – J.P. Sauer & Sohn Maschinenbau GmbH</i>	149
Mechanical optimization methodology for reciprocating compressor systems	
<i>by: Leonard van Lier, Paul Egberts, Can Tümer – TNO, Department of Heat Transfer and Fluid Dynamics</i>	163
The impact of system parameters on reactive damper transmission loss characteristics – experimental and simulation approach	
<i>by: Warzyńska Urszula, Siwulski Tomasz – Wrocław University of Science and Technology</i>	175
Feasibility Study of a Novel Toroidal Damper Concept for Improved High Frequency Pulsation Control	
<i>by: André Eijk, Javier Fatou Gómez, Olaf Vijlbrief – TNO; Cyril Wentzel – Wentzel Dynamics</i>	187
Improved plant reliability due to acoustical and vibrational optimisation	
<i>by: Dr.-Ing. Patrick Tetenborg, Dr.-Ing. Johann Lenz – KÖTTER Consulting Engineers GmbH & Co. KG</i>	197

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

SEALING TECHNOLOGY AND EMISSIONS

Oil-free compression of hydrogen – which role plays the crosshead compressor today and in future? <i>by: Thorsten Harder, Norbert Feistel, Felix Ragg – Burckhardt Compression AG</i>	207
A technological approach to emissions reduction: A case study at a major European refinery <i>by: Paul Modern – Cook Compression</i>	215
An Improved Dynamic Rod Packing Seal and Eliminating Vent Emissions with a New Static Seal <i>by: Pascal MAHIEUX, Jonathan WHITE – Compressor Products International</i>	223
Piston Rod Packing Solutions for Reduced Emissions <i>by: Georg Flade & Marc Langela – STASSKOL GmbH</i>	229
A comprehensive cylinder-lubrication model for reciprocating compressors <i>by: Bernhard Fritz, Bernhard Schleichl – TU Wien, Institute of Fluid Mechanics and Heat Transfer (E322)</i>	237
Early work supporting future conductive sealing rings to reduce piston rod temperature and wear <i>by: Cyril Wentzel – Wentzel Dynamics; Marc Langela – Stasskol GmbH, Germany</i>	247

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

AIRLIQUIDE

- **One year's successful industrial test of a new all-electric capacity control system**
by: Saillard Delphine – Air Liquide; Benoni Albert, Gerhard Hölzl – HOERBIGER 3

AERZEN

- **Your Gas Compression Application – Reciprocating, Centrifugal, or Screw?**
by: Greg Phillippi, Ben Williams – Ariel Corporation; Tim Manthey – Aerzen USA; Jonathan Sutter – Elliott Group; Bruce McCain – Oxy Permian 9

ARIEL

- **Your Gas Compression Application – Reciprocating, Centrifugal, or Screw?**
by: Greg Phillippi, Ben Williams – Ariel Corporation; Tim Manthey – Aerzen USA; Jonathan Sutter – Elliott Group; Bruce McCain – Oxy Permian 9

BAKER HUGHES

- **Large Reciprocating Compressor Modules – A new integrated design process to minimize all risks related to this challenging application**
by: Simone Bassani, Riccardo Bagagli, Marco Passeri, Leonardo Sapuppo – BH Nuovo Pignone* 19

BENTLY NEVADA

- **What's going on with my recip? How uncommon failure modes get detected.**
by: Gaia Rossi, Thorsten Bickmann, Fayyaz Qureshi – Bently Nevada, a Baker Hughes business 87

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

BURCKHARDT COMPRESSION

- **Oil-free compression of hydrogen – which role plays the crosshead compressor today and in future?**
by: Thorsten Harder, Norbert Feistel, Felix Ragg – Burckhardt Compression AG 207

COOK COMPRESSION

- **A technological approach to emissions reduction: A case study at a major European refinery**
by: Paul Modern – Cook Compression 215

COZZANI

- **Valve Data Acquisition throughout the Life Cycle**
by: M. Schiavone, A. Raggi, A. Giampà, G. Ballerini – Dott. Ing. Mario COZZANI s.r.l. 97

COMPRESSOR PRODUCTS INTERNATIONAL

- **An Improved Dynamic Rod Packing Seal and Eliminating Vent Emissions with a New Static Seal**
by: Pascal MAHIEUX, Jonathan WHITE – Compressor Products International 223

CST

- **Validation of Pressure Pulsation and Vibration Analyses in a Reciprocating Compressor for Design Optimization**
by: Cappelli Leonardo, Sacco Marco, Fusi Andrea – C.S.T. S.r.l.; Mazzoleni Thomas – SIAD Macchine Impianti S.p.A. 141

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

ELLIOTT GROUP

■ **Your Gas Compression Application – Reciprocating, Centrifugal, or Screw?**

by: Greg Phillippi, Ben Williams – Ariel Corporation; Tim Manthey – Aerzen USA; Jonathan Sutter – Elliott Group; Bruce McCain – Oxy Permian

9

HOERBIGER

■ **One year's successful industrial test of a new all-electric capacity control system**

by: Saillard Delphine – Air Liquide; Benoni Albert, Gerhard Hölzl – HOERBIGER

3

■ **Maximizing run-time and predicting performance of compressor pistons**

by: Andreas Brandl, John Ladd, Cory Bulloch – HOERBIGER Service Inc.

53

IRAN CHEMICAL INDUSTRIES INVESTMENT COMPANY

■ **Fabrication of test bench for reciprocating compressors valve and choosing proper valve leakage testing procedure according to experimental results.**

by: Fouladivanda Mojtaba, Sadeghi Vahid, Momeni Omid – Iran Chemical Industries Investment Company

65

ITW PERFORMANCE POLYMERS

■ **Innovative Remediation Techniques to Compressor Foundation Systems**

by: Christopher Matthews-Ewald – ITW Performance Polymers

31

KÖTTER CONSULTING ENGINEERS

■ **Improved plant reliability due to acoustical and vibrational optimisation**

by: Dr.-Ing. Patrick Tetenborg, Dr.-Ing. Johann Lenz – KÖTTER Consulting Engineers GmbH & Co. KG

197

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

NEUMAN & ESSER

■ **Accurate load limit determination of reciprocating compressor components**

by: Gerhard Knop, Dr. Klaus Hoff – Neuman & Esser GmbH & Co. KG

41

OIL INDIA LIMITED

■ **Introduction of Electronic Control Panels in Reciprocating Gas Compressor packages**

by: Baruah Prateek, Oil India Limited

107

OXY PERMIAN

■ **Your Gas Compression Application – Reciprocating, Centrifugal, or Screw?**

by: Greg Phillippi, Ben Williams – Ariel Corporation; Tim Manthey – Aerzen USA; Jonathan Sutter – Elliott Group; Bruce McCain – Oxy Permian

9

SIAD MACCHINE IMPIANTI

■ **Validation of Pressure Pulsation and Vibration Analyses in a Reciprocating Compressor for Design Optimization**

by: Cappelli Leonardo, Sacco Marco, Fusi Andrea – C.S.T. S.r.l.; Mazzoleni Thomas – SIAD Macchine Impianti S.p.A.

141

SAUER COMPRESSORS

■ **Reduction of Vibration – Modal testing of a reciprocating compressor, theoretical background and practical testing**

by: Thomas Heumesser, Ferdinand Marks – J.P. Sauer & Sohn Maschinenbau GmbH

149

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

STASSKOL

- **Piston Rod Packing Solutions for Reduced Emissions**
by: Georg Flade & Marc Langela – STASSKOL GmbH 229
- **Early work supporting future conductive sealing rings to reduce piston rod temperature and wear**
by: Cyril Wentzel – Wentzel Dynamics; Marc Langela – Stasskol GmbH, Germany 247

TNO

- **Pulsation Damper Optimization with AI**
by: Jonah Poort, Can Tümer, Pejman Shoeibi Omrani – TNO, Heat Transfer and Fluid Dynamics 117
- **Big Data Anomaly Detection Methods for Reciprocating Compressors**
by: Can Tümer, Jonah Poort, Pejman Shoeibi Omrani – TNO, Heat Transfer and Fluid Dynamics 127
- **Mechanical optimization methodology for reciprocating compressor systems**
by: Leonard van Lier, Paul Egberts, Can Tümer – TNO, Department of Heat Transfer and Fluid Dynamics 163
- **Feasibility Study of a Novel Toroidal Damper Concept for Improved High Frequency Pulsation Control**
by: André Eijk, Javier Fatou Gómez, Olaf Vijlbrief – TNO; Cyril Wentzel – Wentzel Dynamics 187

TU WIEN

- **A comprehensive cylinder-lubrication model for reciprocating compressors**
by: Bernhard Fritz, Bernhard Schlechl – TU Wien, Institute of Fluid Mechanics and Heat Transfer (E322) 237

12th EFRC CONFERENCE

August 24 – 26, 2021, Warsaw

WENTZEL DYNAMICS

- **Feasibility Study of a Novel Toroidal Damper Concept for Improved High Frequency Pulsation Control**
by: André Eijk, Javier Fatou Gómez, Olaf Vijlbrief – TNO; Cyril Wentzel – Wentzel Dynamics 187
- **Early work supporting future conductive sealing rings to reduce piston rod temperature and wear**
by: Cyril Wentzel – Wentzel Dynamics; Marc Langela – Stasskol GmbH, Germany 247

WOOD

- **A Case Study on Modernising the Maintenance Management of Reciprocating Gas Compressors**
by: Kenneth Burns, Ramin Rahn timer – Wood 77

WROCLAW UNIVERSITY OF SCIENCE AND TECHNOLOGY

- **The impact of system parameters on reactive damper transmission loss characteristics – experimental and simulation approach**
by: Warzyńska Urszula, Siwulski Tomasz – Wrocław University of Science and Technology 175
